

# Filtration

High performance  
materials for air  
and liquid

# Over 50 years commitment to the global filtration industry

We Purify and Protect with Every Fiber, for a Sustainable World.

The Filtration and Life Sciences division, Ahlstrom's "purifying" powerhouse, produces high-performance materials for transportation and a wide range of air and liquid industrial filtration applications, as well as life science and medical solutions.

Our materials also support electrification with **Ahlstrom FiltEV®** for Electric Vehicle filtration solutions and **Ahlstrom FortiCell® LAB** for cutting-edge, fiber-based Lead Acid Battery solutions.

Using advanced technologies and sustainable practices, we provide high-quality products that meet global customer needs. This commitment reinforces our position as a trusted leader in delivering essential filtration and life sciences solutions worldwide.

## Essential air and liquid filtration applications

### Transportation

Engine Air Intake / Engine Oil / Engine Fuel / Cabin Air / Fuel Cell Air Intake / Transmission & Cooling Oil

### Industrial

Air Pollution Control / Gas Turbine / HVAC & Clean Room / Air Oil Separation / Hydraulic

### Liquid and Life Sciences

Food & Beverage / Process Fluids / Water Purification

### Lead Acid Battery

AGM Media / PE Separator Reinforcement / Pasting Materials

## Filtration expertise and production capacity across the globe

## Ahlstrom in numbers

## Ahlstrom in brief

Ahlstrom is a global leader in combining fibers into sustainable specialty materials. Our purpose is to Purify and Protect, with Every Fiber, for a Sustainable World. Our vision is to be the Preferred Sustainable Specialty Materials Company for all our stakeholders. Our three divisions, Filtration and Life Sciences, Food and Consumer Packaging, and Protective Materials, address global trends with safe and sustainable solutions. Our net sales in 2023 amounted to EUR 3.0 billion, and we employ some 7,000 people.
