# AHLSTROM-MUNKSJÖ RELIANCE® SOLO

## SMS Bonded system for simultaneous wrapping

Ahlstrom-Munksjö Reliance® Solo is composed of two bonded sheets of SMS for easy to use, simultaneous wrapping.

Like sequential wrapping, Reliance® Solo creates a tortuous path, delivering aseptic opening at the point of use.

Two colors allow for easy identification of damage from transport/storage and wrong handling.

### Benefits and Characteristics

- Simplified wrapping process
- Proven best barrier to prevent penetration of microorganisms through the bonded layers
- High strength to avoid rips, tears or punctures
- Third party ISEGA certification before and after sterilization, CE marked and FDA approved
- Lotcode printed on every application
